

Relating Outcomes to Lived Experience

Karen Machin
ROLE network

<http://role.org.uk>

ROLE network

- 2006 - ROC / ROLE project
- 12 people with lived experience
- North West England
- 2010 - Open Up initiative
- ROLE network CIC

Outcomes

- Input - resources - money, time
- Output - products - numbers of people taking part, leaflets produced
- Outcome - change - learning, impact

Outcomes in Mental Health

- Discussion paper
- Looked at various outcome measures including
 - DREEM
 - HoNOS
 - recovery star

Outcomes in Mental Health

- Conclusions:
 - Couldn't recommend any one outcomes tool
 - Outcome measures should focus on individuals
 - *“What is important to you and how might we achieve that with you?”*
 - Broader than just mental health - Capabilities approach? (Sen)
 - User-developed outcomes tool

No health without mental health

- **a cross-Government mental health outcomes strategy for people of all ages**
- This strategy sets out six shared objectives to improve the mental health and well-being of the nation, and to improve outcomes for people with mental health problems through high quality services.

- “The NHS Outcomes Framework will be developed over time to include indicators that cover the full spectrum of mental health problems and recovery in primary, secondary and specialist care.”
